TECH SKILLS

Core: Backend & APIs:

- React
- TypeScript
- JavaScript (ES6+)
- HTML5
- CSS3
- RESTful APIs
- Axios
- Firebase

Build & Performance: Code Quality:

- Webpack,
- Vite
- Babel,
- Gulp
- Docker
- ESLint
- Prettier
- Husky

State Management:

- Redux Toolkit
- RTK Query
- Zustand

Styling & UI Libraries:

- Tailwind CSS
- CSS-in-JS (Styled Components, Emotion)
- SASS

UI Frameworks: PWA & Offline:

- Material UI
- Headless UI
- Radix UI
- TanStack
- Ant Design
- Service Workers
- Workbox

Testing:

- Jest
- React Testing Library
- Cypress
- Storybook, Loki

SOFT SKILLS

- Detail orientated precision
- Agile adaptability
- Proactive problem solving
- Emphacy & user-centric mindset
- Stuctured analytical thinking
- Team & Solo Contributor

LANGUAGES

- English – Upper- Intermediate
- Ukrainian - Native

EDUCATION

• STEP IT Academy
[Frontend Developer](#) Oct 2023 - Apr 2024

• IT School GoIT
[Frontend Developer](#) Sep 2022- Apr 2023

• Research Center for Industrial Problems of Development of the National Academy of Sciences of Ukraine
[PhD candidate in Public Administration and Management](#) 2018- 2022

• Kharkiv Educational-Scientific Institute of the Banking University
[Banking](#) 2011-2017

PROFESSIONAL SUMMARY

Results-driven React.js & TypeScript Front-End Developer with 2+ years of experience architecting high-performance, scalable web applications. Delivered business-impacting solutions like Hubmee's platform (featured at Startup Grind SF and Expand North Star Dubai), enhancing user engagement through technical excellence. Expert in AST transformations, ESLint plugins, and performance optimization – applying analytical problem-solving to build maintainable, user-centric systems. Agile contributor who ships end-to-end solutions in cross-functional teams. Seeking a role to solve core business challenges through user experience engineering, transforming complex workflows into intuitive UIs that improve KPIs like conversion and retention.

PROJECTS EXPERIENCE

[DEV INTERVIEW HUB](#)

[GitHub](#)

[Live App](#)

A centralized platform for developers to organize job interview prep (technical Q&A, soft-skills responses, and coding tasks) , replacing scattered notes with a searchable system.

Key Contributions:

- **Scalable Architecture:** Implemented Feature-Sliced Design (FSD) with 30+ reusable components.
- **Workflow Automation:** Developed CLI tools to generate boilerplate code , reducing dev time by 80%.
- **Performance Optimization:** Reduced bundle size by 40% via code splitting, lazy loading, virtualization, data normalization and tree-shaking.
- **PWA & Offline Support:** Integrated Service Workers, smart caching, and Firebase for real-time reliability.
- **Testing:** Achieved 95%+ test coverage (unit / component / E2E) and visual regression (Storybook / Loki).
- **CI/CD Automation:** Streamlined deployments with GitHub Actions for efficient processes.

Skills used: React, TypeScript, Webpack, Vite, Babel, JavaScript(ES6+), FSD, RTK Query, Firebase, PWA, Jest, React Testing Library (RTL) , Cypress, CI/CD, SASS/SCSS, Headless UI, ESLint, React Router, Storybook , Loki

PROFESSIONAL EXPERIENCE

[Frontend Developer](#)

Prevently (Start-up Project)

Jun 2025 - Present (Remote)

Personalized web app empowering women to manage preventive health. Built a scalable, intuitive platform as a key frontend contributor.

Key Responsibilities:

- **Led frontend development**, architecting a scalable, maintainable system from scratch
- **Collaborated cross-functionally** in Agile/Scrum to build a cost-efficient, user-focused platform.
- **Ensured responsive and accessible UX** for both desktop and mobile

Key Contributions:

- **Increased onboarding completion rate by 45%** with a user-centered multi-step flow (100 beta users), enhancing intuitive UI/UX to increase engagement.
- **Boosted app load speed by 40%** via lazy loading, code splitting, and media optimization—enhancing UX and engagement.

[Frontend Developer](#)

Hubmee (Product company)

Feb 2024 - May 2025 (Full-time)

Digital manager that helps users organize household tasks, manage documents, and track expenses. Played a key role in Hubmee's industry recognition at **Startup Grind San Francisco**, **Expand North Star Dubai**, and **Unicorn Mentorship Program** at **Startup World Cup 2024**.

Key Contributions:

- **Built financial dashboards** with charts, improving data clarity and user engagement by 30%.
- **Enhanced app reliability** by integrating Sentry for real-time error monitoring, reducing crash rates by 15%.
- **Integrated Mixpanel analytics** to track user behavior, driving a 12% increase in retention through targeted optimizations.
- **Streamlined frontend architecture** for scalability and modularity, reducing onboarding time by 25% and development effort by 20%.

[Frontend Developer](#)

Freelance

May 2023 - Jan 2024

Key Responsibilities:

- Developed **scalable UI kits & design systems** for 15+ apps, enhancing consistency.
- Built **reusable Storybook libraries**, improving DX via 50% faster design-to-code handoff.
- Resolved **cross-browser/device UI bugs**, ensuring consistent rendering and functionality.

Key Contributions:

- **Modernized legacy code**(jQuery → React + TypeScript), reducing runtime errors by 80%
- **Optimized Webpack**, improving page load time by 40% and achieving 90+ Lighthouse scores.
- **Boosted accessibility** to WCAG 2.1 AA (98% compliance), reducing a11y tickets by 15%.
